

FOOD & BEVERAGE SOLUTIONS

Red-D-Arc is equipped with both the equipment and the expertise to tailor turnkey rental options for tube welding and dry ice blasting—a perfect pair for the food and beverage industry!

DRY ICE BLASTING

35-65% decrease in shutdown time
Kills Salmonella, E. coli, Listeria & more
Meets FDA standards for managing food safety

Dry ice cleaning blasts dry ice (solid CO₂) at supersonic speeds, which sublimate on impact to disperse substrate contaminants without damaging the surface.

- Air Conveyors & Bottling Lines
- Ovens & Furnace Exhausts
- Packaging/Labeling Stations
- Fermentation Tanks
- Brewing Vessels
- Belts & Conveying

TUBE WELDING & CUTTING

Easy-to-use orbital welding & cutting equipment for food grade applications

Orbital Fusion Welding Heads are designed for closed-chamber weld head TIG welding in multiple positions and set ups.

AXXAIR's automatic orbital welding equipment is designed to meet or exceed critical welding specifications that require high quality, repeatable and sanitary welds.
